[Special Dispatch to the Chicago Tribune.]

WASHINGTON, April 13.

EXPLANATORY OF THE PEACE PROCLAMATION.

Directions and letters have been sent this week from the War Department and General Grant's Headquarters, to the Department and the Division Commanders, explanatory of the publication of the President's recent peace proclamation. They are informed that it does not supersedure martial law, and does not restore the privileges of the writ of habeas corpus. It was also stated in them that the troops are not to be withdrawn at present, that more will be sent to any place where they are needed, and that the duties and operations of the army are not in any respect thereby abridged.

TRIAL OF JEFF. DAVIS.

It can be positively stated that the Attorney General is busily engaged in arranging for the speedy trial of Jeff. Davis. He will be arraigned before the United States Circuit Court for the District of Virginia, which will be convened, as at present, at Richmond, on the first Monday in May next.

It is intimated that the President has consented to assume one of the Pennsylvania prisons as a place of confinement for Jeff. Davis, should he be convicted of treason. It is said, has offered Colonel Forney, recently on trial at South Philadelphia for the murder of Alexander Lockington, has been convicted of murder in the second degree, and sentenced to two years' imprisonment in the Eastern Penitentiary of Indiana.

The plates of the fonds engraved in the Phil. Jeffries case, recently fitted out and intended for circulation in the Southern States, have been seized by officers of the Secret Service, and will be destroyed in the St. Cross river, to keep in any other plates that may be found. It is supposed that the trial of Jeff. Davis will occupy about three weeks. He will be arraigned on a charge of high treason. Other prominent rebels are mentioned in the connection, while others are prepared for "distribution."

The Fenian excitement in the Provinces continues. Arrests are being made in Canada daily. Infantry companies throughout the Province of Quebec are said to have orders to gird up their loins, that they may be ready for action at a moment's notice. The gathering of the Fenians is said to be the largest since '37.

On the 9th inst. the Secretary of War transmitted to the House of Representatives a statement of the amount of money paid to the Illinois Central Railroad Company for transportation during the war. The Quartermaster's vouchers, to whom the transportation of troops was entered, states in the letter that it is impossible to say how much of the money paid to the Illinois Central Company belonged to them and how much was due to companies to whom they received freight. Nor could he tell how much of the money to be paid to other roads was connected with the Council, when the settlement was to be rendered, and whether any part of the amount to be paid was properly applied to the President of the company, and received from him a statement of account, showing that the amount was $2,047,883.54.

In the Senate, on the 10th, the day was set apart for the consideration of post-in bills, several of which were disposed of. Mr. Whitney called up the bill to prevent the absence of Territorial officers from their official duties. The bill provides that no officer appointed or to be appointed to reside within or from the Territory more than thirty days at a time. Mr. Wilson's relief that Territorial Judges, Governors, Secretaries, &c., from West of the Rocky Mountains, frequently absented themselves, for all months at a time, to visit Washington and other Eastern cities. Pending the consideration of the bill, the morning hour expired, and the unfinished order, which was the consideration of pension bills, taken up. The Senate refused a resolution for the appointment of the House bill providing the sale of liquors in all the public buildings. A resolution was passed calling upon the Secretary of the Interior for information in relation to the lands in the Mississippi in this country, and what measures had been taken to prevent the absence of Territorial officers from their official duties. In the House, Mr. Washburne, of Illinois, introduced a resolution which was adopted, instructing the Committee on Commerce to inquire what legislation, if any, is necessary to prevent the introduction of cholera from the United States. A communication was received from the Secretary of War, in answer to a resolution of the 10th instant, relative to the Surveyor of the Customs at Chicago, in which he sends to the system of Mr. Wilson, under the letter from the Secretary of War, stating that the Surveyor of the Customs at Chicago, in the Province of Ontario, is in the habit of making seizures of goods, and, if occasion requires, procuring the assistance of the military power. The Secretary of War says that he has no knowledge of any such practice. He will be answered as a matter of high courtesy. Other prominent subjects are mentioned in the connection, which we are not prepared for publication.

Iron Works.

Bartow Iron Works

Cass County, Georgia.

We offer for sale this valuable property, situated near the track of the Western and Atlantic Railroad, at which point all Atlanta. The property is surrounded by a healthy and productive country abounding in mineral wealth, such as coal, iron, copper, gold, limestone, &c. The estate is in two tracts, one of 1,253 acres, 450 acres are heavily timbered and well watered, and the other of 1,000 acres, 400 acres are cultivable, 400 acres are cleared, of which 200 acres are first-class bottom lands in a compact body on Pumpkin Vine Creek, which is navigable for flat boats from the Etowah River. The balance is within the limits of the Western and Atlantic Railroad with a turnout entirely, and only 7 miles from Kingston depot. These works were in successful operation during the war, until damaged by the retreat of the Union Army. A recent carefully prepared estimate by a reliable engineer, estimates that it will not cost exceeding $100,000 to put the furnaces of the Bartow Works the capacity of 1,500 tons of hot blast iron per annum. The works have thoroughly the confidence of the people in the vicinity, and the iron produced is of superior quality. A load of gold bearing quartz rolled ten tons to the ton, and yielded at the rate of $1,000 per ton. Many other specimens of gold, and copper, equally as rich, have been produced on this land. Other specimens of coal, iron, copper, &c., are to be seen at the office of the undersigned. Any person desiring to purchase this property will please call on or address
